Allowable Subject Matter

This communication is in response to applicant's amendment which is filed December 12, 2005 in the application of Chuey for a "programmable vehicle-based appliance remote control" filed July 30, 2003.

The proposed amendment has been entered and made of record. Claims 1 and 27 have been amended to more particularly point out and distinctly claim the invention.

Applicant's amendment with respect to the pending claims 1 and 27, filed December 12, 2005, places the application in condition for allowance.

Claims 1-28 are allowed as evident by applicant's amendment and argument.

Referring to Claims 1-14 and 27-28, the following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest automatically prompting the user to select one of a plurality of subsets of possible activation schemes, at least one of the plurality of subset including more than one but less than all of the possible activation schemes; and receiving user input selecting a particular subset of the plurality of subsets.

Applicant's argument with respect to the pending claims 15-26, filed December 12, 2005, are persuasive. Therefore the examiner has withdrawn the rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nam V Nguyen whose telephone number is 571-272-3061. The examiner can normally be reached on Mon-Fri, 8:00AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Horabik can be reached on 571-272-3068. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9314 for regular communications and 703-872-9314 for After Final communications.
